Thanks Rick, interesting.

We had a call with TU's Shoren Brown (call with Nancy Stoner) this afternoon. They have worked with

TNC in a recently prepared a lengthy analysis of PLP's water rights applications, and preparing an annotated biblio of available data/information relevant to decisions.

Are pre-briefs set for upcoming meeting/call with Administrator Jackson?

Dave

Subject: December 3, 2010: Keystone Center Panel on the Proposed Pebble Mine

Greetings,

On December 3, 2010, The Keystone Center will kick off its dialogue process on the proposed Pebble

Mine with an independent panel titled "Responsible Large-Scale Mining: Global Perspectives." This day-long event at the University of Alaska Anchorage will bring together international experts from conservation organizations, academic institutions, and the mining sector. The panel will include presentations and discussion of the environmental, social, cultural and economic principles and criteria that experts use to define responsible large-scale mining. The event is free and open to the public. There will also be a live webcast for remote participants.

Please see the attached flyer and visit www.keystone.org/pebble for more information. To register, visit: www.keystone.org/registration/pebble

Please contact me with questions about this event or the dialogue process.

Sincerely,

TB

Todd Bryan, Ph.D.
